## AEDC Business/Organization Response to Covid-19

26 responses

[Publish analytics](#)

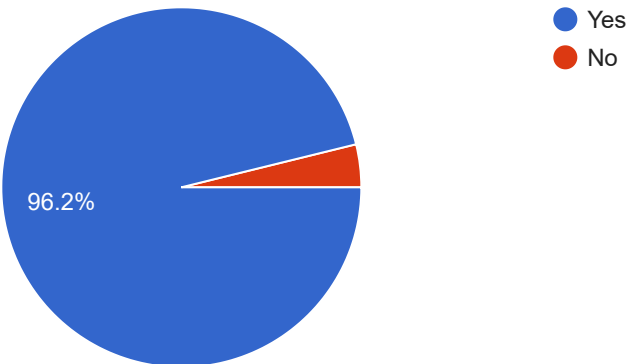

Has the demand for your product or service increased or decreased as a result of Covid-19?

26 responses

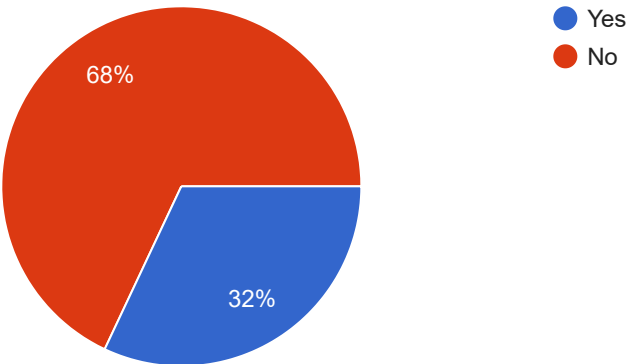

To protect employees and/or customers, have you limited access to your business facility(s)?

26 responses

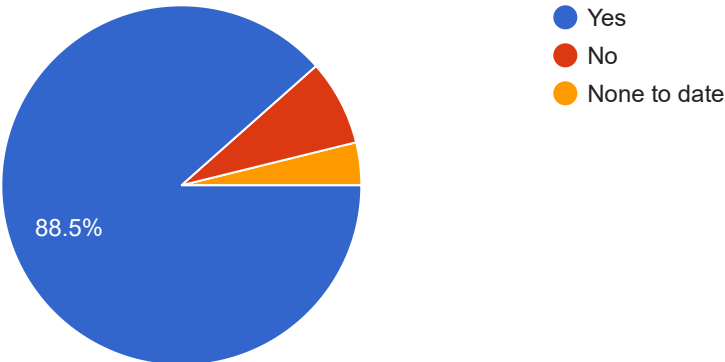

Have you started taking the temperature of those entering your facility(s)?

25 responses

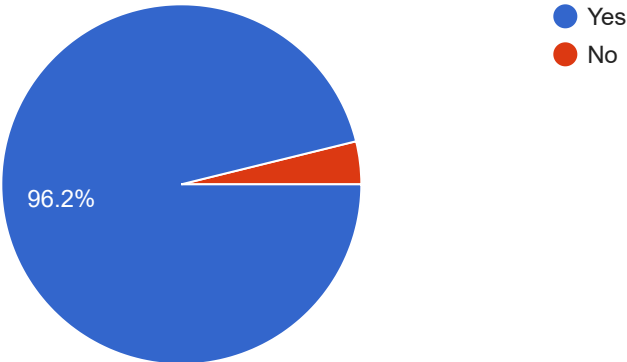

Is your organization tracking the number of employees who have been infected with Covid-19?

26 responses

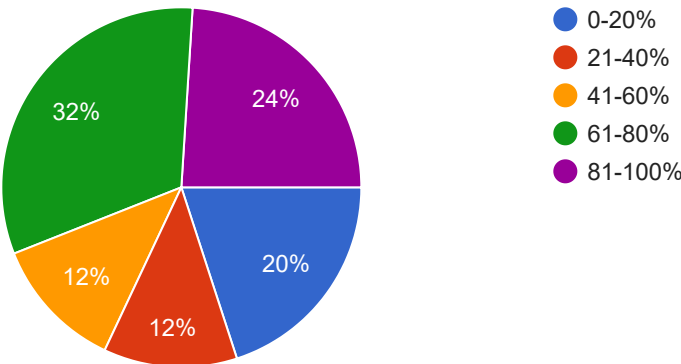

Have you asked and/or allowed employees to work from home?

26 responses

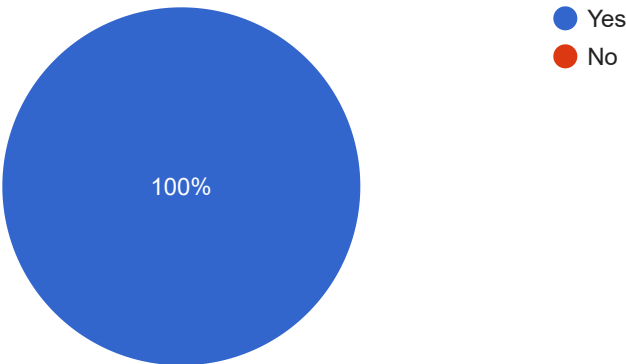

If employees are able to work from home, what percentage of your employee base are doing so?

25 responses

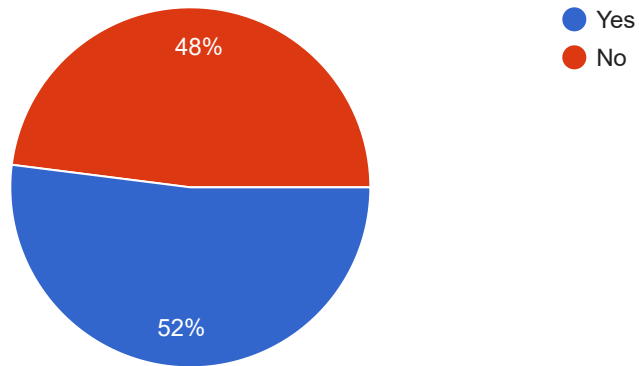

Have you added additional cleaning/sanitary practices?

26 responses

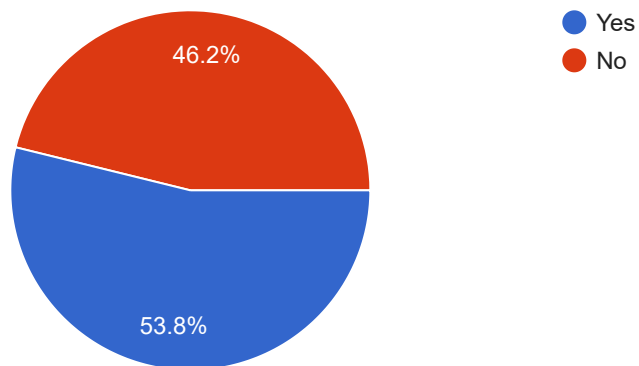

Have you adjusted working hours or shifts as a result of Covid-19?

25 responses

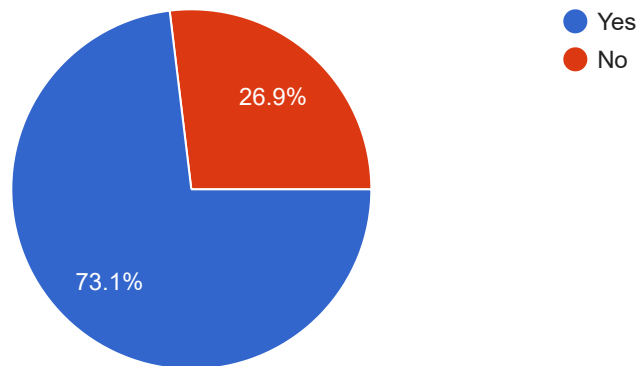

Have you installed equipment to limit common touch points (i.e., foot handles, touchless soap dispensers, etc.)?

26 responses

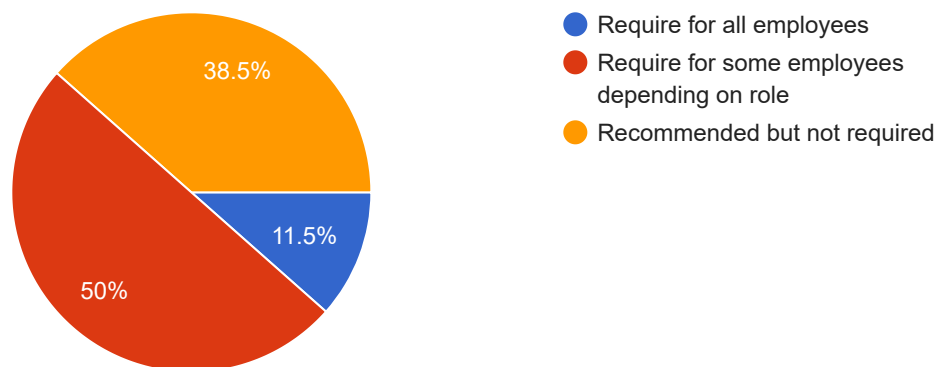

Have you offered or made available personal protective equipment for employees (offered but not required to wear)?

26 responses

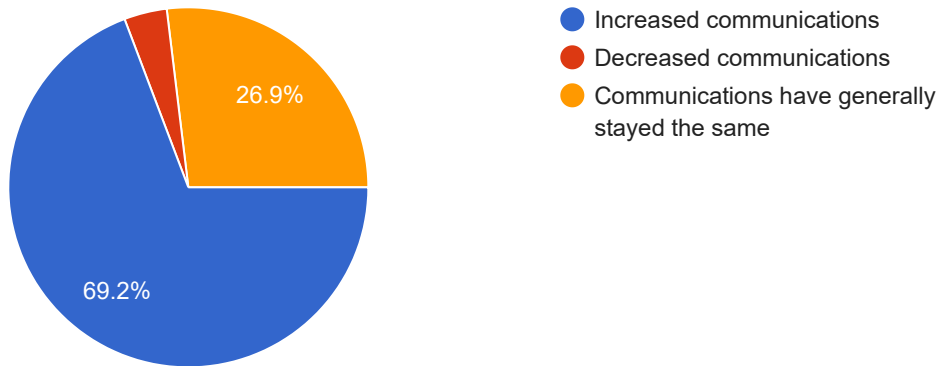

Do you require Covid-19 related personal protective gear (i.e., face shields, gloves, hand sanitizer, etc.) for some or all of your employees?

26 responses

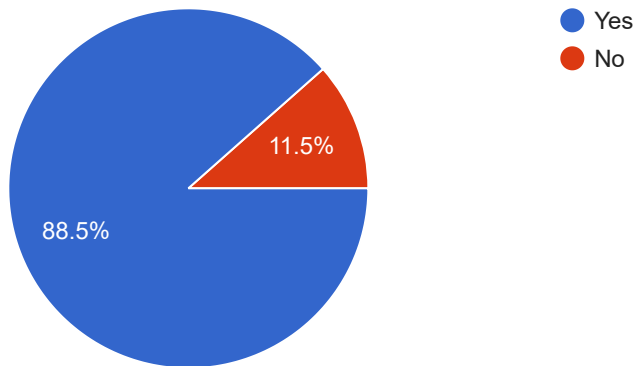

### Has your customer and/or employee communication practices changed?

26 responses

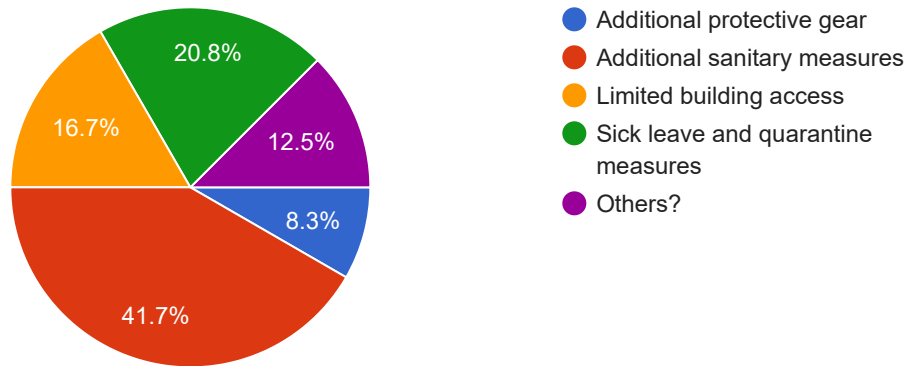

### Do you plan to maintain some or all of these new practices after stay at home restrictions ease?

26 responses

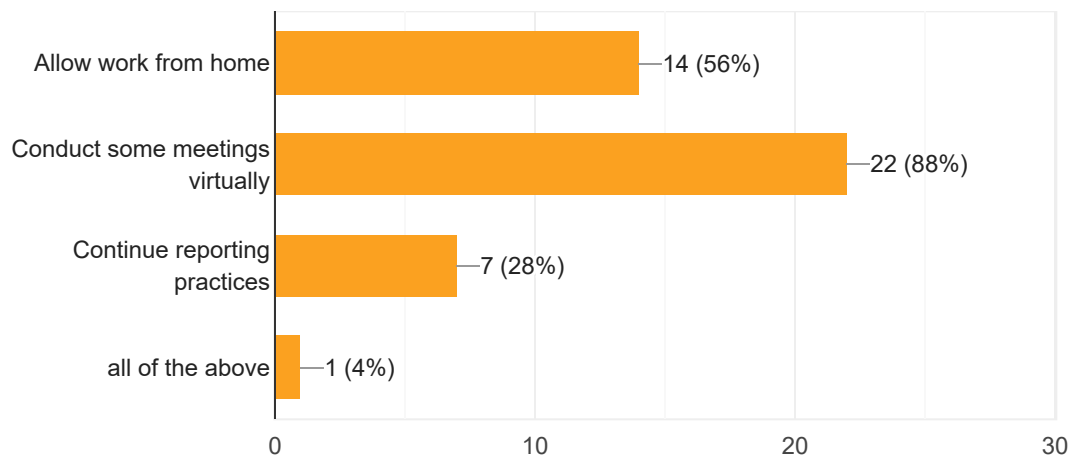

### If you plan to maintain some new practices, which ones will you keep?

24 responses

### Have you implemented new business practices not related to human health (business dashboards, touch-base meetings, reports or system processes) that you plan to maintain after the stay at home restrictions ease?

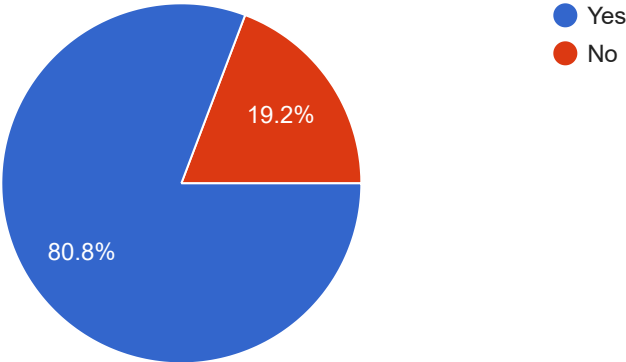

25 responses

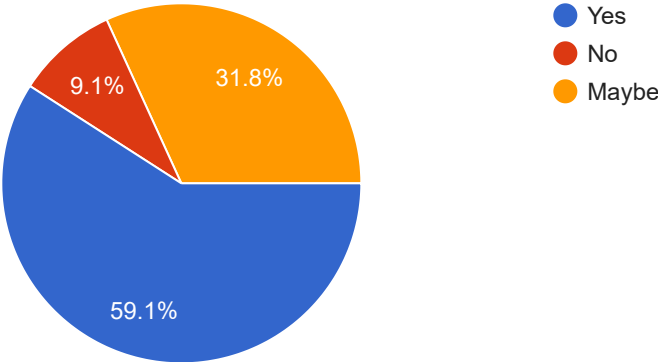

Have you added practices or procedures to help maintain quality or process continuity during this business disruption period?

26 responses

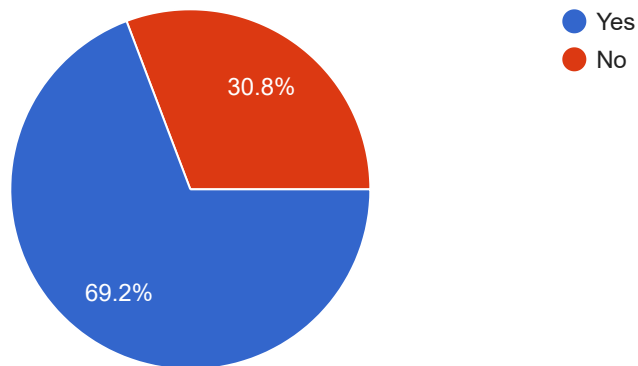

If you've added practices/procedures to maintain continuity do you expect to maintain these after stay at home restrictions ease?

22 responses

## Has your organization experienced supply chain disruptions as a result of Covid-19?

26 responses

## Is there something AEDC or others in the business community could do to help your organization during this crisis?

8 responses

No

Establish a database of applicants (resumes) seeking employment in the DSM metro area/Ankeny. Organize by area of work interest, i.e. IT, Manufacturing, Accounting, Banking, etc...Let the applicant to upload the resume. Access to that database through a website would be provided ONLY to AEDC dues-paying member companies.

no, thanks

no

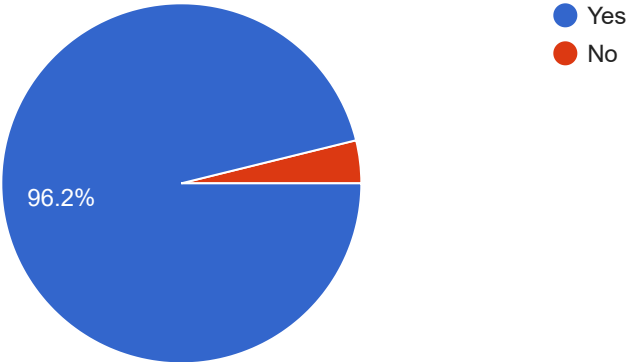

Not at this time.

Share other organizations approach to repopulated offices and facilities after the stay at home restrictions are lifted, so keep doing what you are doing. Furthermore, hearing about how organizations are responding to pressure from employees to continue working from home after the stay at home order is lifted.

Do you believe your business will be stronger a year from now?

26 responses

Are you able to find the workforce your business needs to meet current demand?
